- Information/FAQs

### National Center of Health and Fitness

### Robert Andrew, P.E.

#### Areas of Expertise:

Collaboration tools for networking of countries and multi-national organizations; Location-based mapping tools for visual displays of data and analyses by region; Role of individual entrepreneurs and academics in advancing international initiatives; Knowledge of, and access to, experts, government and industry in New Zealand

#### Additional Information:

**Bob Andrew**, appointed as adjunct in 2001, for 2003-2004 is serving the Department of Health and Fitness, in the College of Arts and Sciences, as technology expert for their [International Institute for Health Promotion](#). In this role he is providing smart web tools to move the "IIHP" into a multi-regional governance model, with academic centers of excellence on each continent. Mr. Andrew comes to American from a career background with Mobil Corporation, where in his Global Professional Services role he was project manager for "GENIE", global best practices in environment, health and safety.

In 2002-2003 he worked directly with the Academic Associate Dean for CAS to develop a Sloan Foundation award-winning redesign of a new [Professional Science Masters](#) program, building on his experience as a Senior Lecturer at University of Auckland 1982-1984 re-designing their undergraduate programs.

Mr. Andrew is professionally active in the "[Washington Geographic Information Systems](#)" network, also active in DC government civic organizations, serving as webmaster for three Advisory Neighborhood Commissions, as well as heading up "[Kiwis In DC](#)" a chapter of the global "[Kiwi Expat. Association](#)".

**Academic Credentials:** B.E. (Hons) in Chemical & Materials Engineering, University of Auckland, New Zealand
